"THEY'RE MAKING 'EM LARGER NOWADAYS."

No—The eye of the needle is no larger than before. It's the Welsbach. A Perfect Home Light. Copyright, 1899, by Welsbach Commercial Co., Philadelphia, Pa.

SCHOOL CHILDREN

Should not be permitted to study evenings under a dingy, yellow lamp, for it is due more to this cause than to improperly lighted school rooms that hundreds of children are compelled to wear glasses before they are out of the grades. The Welsbach light is of a high candle power and approaches nearer daylight than any other form of light; therefore there is no danger of overtaxing the eyes.

It matters not what your vocation is in life, it is essential that you use the best light obtainable. Gas is cheap, and in the reach of those in moderate circumstances. Any house can be piped whether old or new. You will be surprised to find how cheaply the work can be done. Inquire at our office.

THE BEST EDUCATED MAN

IS HE WHO IS BEST FITTED TO SERVE HIS FELLOW MEN.

SUCH IS THE OSTEO-PATH.

Professionally, it is he who has those accomplishments which the fewest people possess. Financially, it is he who has that for which the most people are willing to pay.

We state below a few of the many reasons why

SUCH IS OSTE-OPATHY.

THE DR. S. S. STILL COLLEGE AND INFIRMARY OF OSTEOPATHY.

Des Moines, Iowa

Is the best place to study for this profession.

1. Its location is central to the city, the state and to the whole of the Mississippi valley.
2. Its growth and progress are without parallel in the history of Osteopathic schools.
3. Its course of study is most complete.
4. Its faculty is the largest and strongest.
5. A complete dissecting room, where each student dissects a lateral half of cadaver, with no additional fee.
6. Gynecology and obstetrics constitute so large a portion of the Osteopath's practice that we make a special claim for excellence in this department.
7. Its equipment is modern and complete.
8. We have more graduate Osteopaths in our faculty than are connected with any other college of Osteopathy.
9. We give double the amount of actual practice given by any other Osteopathic institution.
10. Anatomy is taught during the entire four terms—more than is given in any other school.
11. The faculty and trustees are Christian men and women, and their influence is for the maintenance of a moral atmosphere.

Do not enter upon an already over-crowded profession. Investigate this science by a personal call, asking for the secretary,

COL. A. B. SHAW.

THREE HUNDRED FORTY STUDENTS

The Dr. S. S. Still College of Osteopathy,

1422 TO 1428 LOCUST ST.

DES MOINES, - - IOWA.
